つながる、家族の笑顔。

greeting

# Richell

Richell Corporation refreshed its Corporate Identity by changing logo design and Company website in July 2022.

Ever since the company's establishment in 1960 as Silver Jushi Kogyo, and later name change and implementation of CI in 1987, Richell has been committed to the corporate philosophy "We will provide Good Products that only we can make, with a refined and progressive sensibility". Richell has been offering a broad range of products, such as Houseware, Gardening, Baby, Pet, Healthcare, and Environment Products utilizing nature of various materials from plastics, woods to metals with a focus on craftsmanship together with its customers.

The corporate logo is renewed in effort to make even better products for customers and to achieve sustainable growth and the corporate philosophy.

change

# Richell

The new corporate logo represents a unified image of future globalization along with our developed confidence, high quality, and friendliness. It also expresses our thoughts of contribution to society with further advanced new sense and the future-oriented craftsmanship.

We named the logo color 'NR Green (New Richell Green)'. It represents 'Freshness' and 'Gentleness'.

Richell will keep stimulating the awareness of its existence and its individual employee will keep venturing into new challenges with high aspiration under the new corporate logo.

Richell will keep working to realize 'Creation of a New Lifestyle' as a value-creating company.

Richell Corporation

## Bringing sparkle to parenting

"For the wonderful presence that is a newborn baby ...  
For moms who also cherish their own sense of self ...  
For the whole family's to be happy ...

To make parenting  
a precious, sparkling time  
through our proposals,  
and to offer support for  
"Embracing parenting" and  
"Connections and smiles for families,"  
Richell will continue to evolve.

Mug

# アスター Axstars

日常に特別なきらめきを。

Bringing “special” sparkle to the everyday ...

A special mug for a special baby

All parents want to reflect themselves in the way they raise their children.  
Add your own unique taste to your baby's everyday mug.  
A special mug that will make mom and the whole family happy

## Light Gray

An elegant gray that resembles  
the sky before dawn

## Light Blue

A nuanced blue that evokes  
the sky and the sea

## Pink

A fashionably  
cute coral pink

## At home

### Cup de Straw Training

Practice drinking with a straw

### Cup de Direct Drink

Practice drinking directly

#### STEP1

Practice sucking first

#### STEP2

Learn to "suck" and use a straw well

#### STEP3

Remove the lid to turn it into a cup

#### STEP1

Start to hold the drink in the mouthpiece and drink

#### STEP2

With practice, baby will start to direct drink independently

#### STEP3

Remove the lid to turn it into a cup

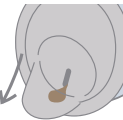

Straw always comes to the front for drinking up.

Easy to clean. Straw and mouthpiece integrated into one.

Hard to choke. Hole shape with drink coming out a little at a time.

Fewer parts for easy care

I did it! Yay! Let me try more!

## T.L.I Cup series

Learn natural lip movements, and step up properly

Learn natural lip movements

### Step up properly

Since babies are used to breast-feeding or drinking from baby bottles, if they're going to drink from cups, they need to learn in ways that match their growth stage.

step 1  
Broad mouthpiece  
Spout Cup

Practice  
puckering  
lips

step 2  
Thin mouthpiece  
Straw Cup

Practice  
sucking

step 3  
360 Access Cup

Practice  
closing  
mouth to  
swallow

## Straw Cup / Insulated Straw Bottle Cup

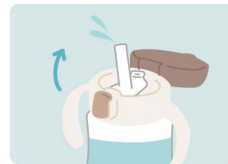

When it's shaken up and down inside a bag ※2 ※3

When the cover is opened while it's filled with hot water ※2

When the cover is opened while it's filled with cold water ※2

When it's left sitting around with the cover open ※2 ※3

When it tips over suddenly while the cover's open ※2 ※3 ※4

※1 It's only "leak-proof" if the product is used properly, and if the air valve isn't physically damaged or worn out.  
 ※2 Depends on the temperatures of the environment and the drink (environmental temperature 23±5°C)  
 ※3 Drink is at room temperature  
 ※4 Unless it's left that way for a few minutes

## Choose the combination that best suits your baby's growth stage

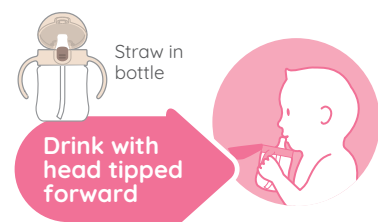

Easily recombine mouthpieces and bottles to suit different situations and baby's growth stage. Insulated bottle keeps the right temperature, so it's handy for long outings.

### Spout Cup

Start your straw lessons with two ways to drink!

Straw is detachable. Let baby drink in the position used during nursing first, without the straw, then gradually step up by attaching it.

### 360 Access Cup

They'll master using a cup by drinking in a way that teaches them the correct lip movements!

Round shape makes it possible to drink from any spot on the rim. Allows babies to practice fitting their upper lip to the cup. Lower lip fits closely to rim, preventing their tongue from getting in their way.

### Insulated Straw Bottle Cup

**Stainless steel bottle keeps drinks tasting their best!**

Vacuum-insulated structure keeps outside air from affecting the contents. Drinks stay at the right temperature, so it's handy for long outings.

## MUGOOD! Series

Leak-proof sippy cup is convenient for outing.

# Mugood!

### Step Up

Choose straw or direct drinking

Unique air valve prevents leaks and spills

Even if baby knocks the cup down or shakes it up and down with the lid open, the contents will not leak out easily (Straw Cup, Full Rotated Drinkable Cup)

Easy to keep clean!

Simple structure with fewer parts for ease of cleaning and washing

Baby-friendly shape is easy for small hands to hold

Angled handle is easy for baby to hold and drink

### Straw Cup

Light Blue	4973655 99271-5
Pink	4973655 99272-2

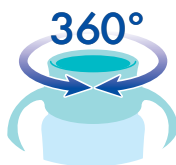

### Full Rotated Drinkable Cup

Learn the correct lip movements to master drinking from a cup!

Push-flow structure for drinking without spilling

Drink comes out when the cup is tipped up while pushing this plate.

Round shape allows baby to drink from any part of the rim. Baby can train how to close the top lip, and the bottom lip fits around the rim, stopping the tongue from sticking out.

Designed so that the drink comes out when the baby pushes down on the inner plate with the top lip and tips the cup up. The contents will not leak out easily even if baby shakes the cup or tips it over.

Baby's first food education!  
Conveys "yummy"

## T.L.I Weaning Starter Set

This set is all you need for baby's first solid food!

Supporting baby's solid food debut

Whole set is microwave-safe

Heat up with cups in the plate and the lids on

Cups and spoons in three colors

Place different foods in different cups and use the same color spoon. This will keep the different foods from mixing, making it easier for baby to learn their different tastes.

Cups are the perfect size for weaning

Easy to hold with one hand. Bottom shape allows food to be scooped out easily with the spoon.

Easy carrying

Convenient to carry small quantities of different kinds of foods all at once

Won't tip over easily even with the spoon left in

Scale makes it easy to judge quantity

Scale cup

For preparing meals or giving medication

Powder type baby food stock, etc. Liquid medicine

Cool sheet

To cool overheated foods or freshly-made hot foods

Soft spoon gentle on baby's mouth

Cups are stackable

Microwave lid

Vent lets steam escape, so cups can be used in the microwave with the lid on.

Food plate

Can be used as a lunch plate after weaning is complete.

Add the T.L.I Suction Cup (sold separately) to prevent the plate from tipping over

### T.L.I Weaning Starter Set

## Toothbrush

I did it ! Yay! Let me try more!

### T.L.I Toothbrush Series

## To make a habit of toothbrushing to match baby's development

T.L.I series supports baby's "I did it!" and "Yay!" moments, while encouraging them to move onto the "Let me try more!" moments. Toothbrushes have been co-developed by a professor of a dental university and a pediatric dentist. Provide total support for baby's oral health with mugs, tableware, and toothbrushes.

### Toothbrushing training and toothbrushes to suit growth and development

Make a habit of toothbrushing

STEP 4

When baby's  
back teeth come in

STEP 5

When baby has  
all back teeth

# Toothpaste

## T.L.I Toothpaste Gel Series

Delicious taste helps maintain daily habit 🎵

Start toothbrushing early to support baby's dental health!

Does not contain abrasive agents, foaming agents or coloring.

The best time to start the toothbrushing habit is when the bottom front tooth starts to show! Making an early start on toothbrushing, doing it every day, is not only good for preventing cavities, but it also helps baby's physical growth and development.

Masayuki Sano, D.D.S., Ph.D.  
President, ASUNARO Pediatric Dental Clinic

When baby's first tooth comes in

5 months and up

### Let's begin! Toothpaste Gel

For baby to practice using a toothbrush before learning how to gargle.

Contains  
xylitol  
(Sweetening agent)

Fluorine-  
free

Paraben-  
free

#### Teeth Care Tip

Use a sweetened gel to help baby to get used to having a toothbrush put in his or her mouth.

### T.L.I Let's begin! Toothpaste Gel Xylitol

CTN PK 60  
Size 3.9×2.5×13H(cm)  
Package Size 8×2.7×19H(cm)  
Net weight 30g  
Item code 4945680 20234-3

[Ingredients]  
Base ingredient: WATER / Moistening agents: SORBITOL, GLYCERIN / Viscosity increaser: TAMARINDUS INDICA SEED GUM / Moistening agent: PROPYLENE GLYCOL / Base ingredient: ALCOHOL / Sweetening agents: XYLITOL, SODIUM SACCHARIN / Viscosity increaser: CELLULOSE GUM / Solubilization agent: POLYGLYCERYL-10 LAURATE / pH adjusters: DISODIUM PHOSPHATE, MALIC ACID / Preservative: SODIUM BENZOATE

18 months and up

### Fluoride Care Toothpaste Gel

Contains fluorine for strong cavity prevention.

Paraben-  
free

#### Teeth Care Tip

Once baby starts trying different foods, keeping baby's mouth and teeth clean becomes a concern. From about 18 months of age, use a fluorine-based gel to strengthen your baby's teeth and prevent cavities.

### Choice of 3 flavors

Three fruit flavors that children love.

When baby finishes weaning

### T.L.I Fluoride Care Toothpaste Gel Strawberry

Blue 4973655 44223-4

## Baby Bottle

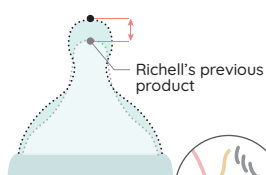

## Baby Bottle

Not just for nursing.  
New shape also helps development  
of your baby's mouth

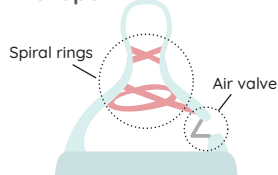

### ■Easier for baby to drink from

#### Longer nipple tip

Nipple fits neatly into the hollow in the upper jaw for easy drinking with the tongue in the correct position

#### Comfortable-to-drink shape

The nipple shape expands and contracts with the movement of the tongue. Drinking feels similar to breast-feeding. Air valve for smooth milk flow.

#### Plump base

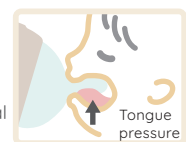

Pliable for a better fit in the mouth.

SP Baby Bottle

### Shape aids development of oral function

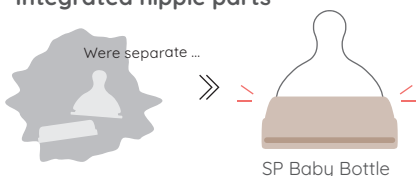

Feeding action with the tongue in the correct position leads to better swallowing to build more swallowing strength. This will help with smooth weaning later.

(Hiroyuki Haishima D.D.S., Ph.D. Matsumoto Dental University)

### ■Easy to clean

#### Integrated nipple parts

SP Baby Bottle

Fewer parts mean less preparation and easier cleaning. More hygienic. No need to touch the nipple when attaching it to the bottle after sterilization.

### 2 sizes to cover the whole nursing period

3 holes  
0-3 months

6 holes  
3-18 months

# Baby Bottle

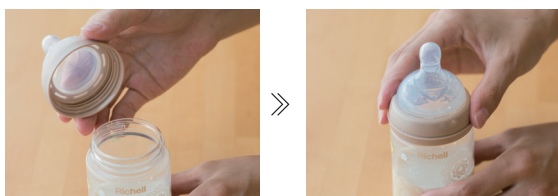

## SP Baby Bottle
